

air hose reels

<https://ehle-hd.com/en/product/air-hose-reels/>

The **air hose reels** are made of unbreakable synthetic rubber and withstand high loads at low weight. The versions for 30 m and 50 m air hose length allow a quick application. The air hose is equipped with air quick-couplings.

Features

- 30 or 50 m pressure-resistant air supply hose (up to max. 7 bar) with standard quick couplings
- tubing made of soft PVC, crystal clear with polyester yarn insert
- drum frame made of unbreakable PVC profile with integrated carrying handle and parking brake
- PVC compact winding body with unbreakable synthetic rubber side flanges in one piece
- color: black
