

Air push rods - strong version

<https://ehle-hd.com/en/product/air-push-rods/>

Our **air push rods in strong version** are particularly stable and have a hollow bending resistance. This makes large sliding lengths possible. They are suitable for positioning packers, joint testing devices and inflatable pipe stoppers.

Features

- strong design enables long sliding lengths
- high bending resistance - low elasticity
- with safety quick coupling

Attributes

Image	SKU	Productname	Attributes	LxWxH & Weight
	2001550	Air push rod strong - 0.5 m	type: high bending resistance length: 0.5 m	500 × 21 × 21 mm 0.30
	2001551	Air push rod strong - 1.0 m	type: high bending resistance length: 1.0 m	1000 × 21 × 21 mm 0.40
	2001552	Air push rod strong - 1.5 m	type: high bending resistance length: 1.5 m	1500 × 21 × 21 mm 0.50
	2001553	Air push rod strong - 2.0 m	type: high bending resistance length: 2.0 m	2000 × 21 × 21 mm 0.70
	2001555	Air push rod strong - 3.0 m	type: high bending resistance length: 3.0 m	3000 × 21 × 21 mm 1.10
