

## BlackRAK-39 drain cleaning machine - set

<https://ehle-hd.com/en/product/blackrak-39-drain-cleaning-machine-set/>

The **BlackRAK-39** from Lehmann GmbH is a machine from a completely new product range and the result of over 25 years' experience in manufacturing uncompromising machines and tools for pipe and sewer cleaning professionals.

This **compact sectional cable machine** is ideally suited for plumbing applications in the DN 30–100 mm range and operates as standard with 16 mm section cables. With an optionally available adapter magazine, 6, 8 and 10 mm spirals can also be used. This reliable and powerful pipe cleaning machine offers versatile applications in the building services sector and, like all RAK machines, features the patented external clamping jaw system for quick replacement and maintenance of the clamping system.

### Areas of application

- Ideal for general maintenance work
- on blocked pipes in washbasin, toilet and drain connections, floor drains and roof drainage systems

## Features

### Clamping jaw system included

The external clamping jaw system facilitates replacement of the clamping jaws. The RAK units need no special tools, you may replace the clamping jaws within a few minutes and continue with your work.
