

## BlackRAK-40 drain cleaning machine - set

<https://ehle-hd.com/en/product/blackrak-40-drain-cleaning-machine-set/>

The BlackRAK-40 from Lehmann GmbH is the first machine in a completely new product line and the result of over 25 years of experience in the production of uncompromising machines and tools for pipe and sewer cleaning professionals.

The sectional cable machine is a real all-rounder and perfectly suited for a wide range of applications. It is universal and versatile. For pipe cleaning from a diameter of 30 - 150 mm, spirals from 16 - 22 mm diameter and with an adapter magazine also suitable for 6, 8 and 10 mm spirals for a wide range of applications. Like all machines in the RAK series, the BlackRAK-40 is also equipped with the globally proven external clamping jaw system. This not only enables the spirals to be changed quickly, but also considerably simplifies maintenance of the clamping system.

### Areas of application

- Powerful, high-torque motor that can cope with even the toughest challenges
- Perfectly suited for service work, industrial applications and robust continuous use

## Features

### Clamping jaw system included

The external clamping jaw system facilitates replacement of the clamping jaws. The RAK units need no special tools, you may replace the clamping jaws within a few minutes and continue with your work.
