

Bulb Auger

<https://ehle-hd.com/en/product/bulb-auger/>

The **Bulb Auger** is the universal pipe cleaning tool in the sanitary sector. The tool with its wide pear-shaped windings facilitates penetration, especially in pipe bends. Due to its enormous flexibility, the Bulb Auger can only be used for light textile and cellulose blockages.

The long version of the Bulb Auger significantly increases the bend mobility once again. The long design with the widely wound spiral makes the tool particularly flexible, so that the long Bulb Auger can be easily guided through branches and bends. This is particularly helpful in branched kitchen lines, e.g. in gastronomy.

Features

Special features

- for light textile and cellulose blockages
- especially bendable
