

burning chamber for smoke cartridges

<https://ehle-hd.com/en/product/burning-chamber-for-smoke-cartridges/>

The **burning chamber for smoke cartridges** is connected directly between the FOG-Smoker 2F or Mega-Smoker fog generator and the fog spiral hose. It enables the fog to be coloured in black (e.g. tyre fire) and red (e.g. chemical fire) for fire simulations during fire brigade exercises.

Features

- for simulation purposes in fire brigade and emergency exercises
- extinguishing exercises
- film, television and photo shoots
- also cartridge black (e.g. tyre fire)
- orange smoke cartridge (e.g. chemical fire)

Not for use in closed rooms and water or sewage pipelines.
