

Tripod cable retrieval device

<https://ehle-hd.com/en/product/cable-retrieval-device/>

The **Tripod cable retrieval device** is the ideal tool for work in down pipes in buildings. A patented cable rescue system (clamping jaws) allows to remove the cables out of the pipe automatically as soon as the cleaner unit is shifted to the right. Work can be executed with ease. Suitable for 22 mm cables, special attachment available for 16 and 32 mm cables.

Features

- for use with 22 mm cable
- 50 mm Guide tube
- Tripod can be telescoped
