

CleverScan - car platform

<https://ehle-hd.com/en/product/cleverscan-car-platform/>

The **car platform** is used to transport the CleverScan manhole inspection from manhole to manhole. It can be mounted directly on any trailer coupling.

It can be quickly and easily converted into a transport trolley using the supplied off-road tyres and drawbar.

Features

- robust and durable stainless steel construction
- with ball head receptacle for all car trailer couplings
- Load capacity approx. 75 kg
- Can also be used as a transport trolley with the supplied drawbar and large off-road wheels for rough terrain

Complete set consisting of:

- Transport platform for CleverScan
- Ball head mount for trailer couplings
- number plate holder
- telescopic laptop holder
- off-road wheels with axles
- drawbar
