

## CO2 pressure kit

<https://ehle-hd.com/en/product/co2-pressure-kit/>

Everything you need to pressurize your camera system. Pressurization is safe, fast and easy. The desired pressure can be easily set on the pressure gauge via the pressure reducer.

Our pressure filling system works with standard water bubbler CO2 bottles the replacement bottles can be purchased anywhere in retail stores.

**Attention: Not suitable for systems with ATEX certification!  
Please use our nitrogen filling unit.**
