

combination cables

<https://ehle-hd.com/en/product/combination-cables/>

Our **combination cables** female/male, male/male and female/female can be used to combine tools with each other. This makes it possible to adapt different tools to the given conditions, e.g. combination chain knockers with blade drills, etc.

Features

- for 16, 22 and 32 mm sectional cables
- variation female/male, male/male and female/female
