

Disposable Shoe Cover

<https://ehle-hd.com/en/product/disposable-shoe-cover/>

The **disposable shoe cover** are ideal for preventive or acute protection of the object/floor to be walked on or the wearer's footwear, such as in damp and dirty environments or footwear (e.g. on construction sites, in workshops and production facilities, building cleaning, etc.).

Thanks to incorporated latex rubber, the overshoes fit perfectly on your feet and close tightly at the ankle. Thanks to the thicker material, these overshoes are particularly durable and do not tear as quickly.
