

Drain force pump

<https://ehle-hd.com/en/product/drain-force-pump/>

The **drain force pump** is a manual cleaner unit for drains of small and medium diameters, highly efficient in kitchen sinks, kitchen down-pipes, showers, tubs and toilets. The ergonomic handle allows a very easy and comfortable operation. The self-locking handle for adjustment of the work position prevents any tilting while working!

Features

- supplied complete with short and long adapter
- versatile for quick removal of blockages in basins, tubs, toilets etc.
- withstands heavy loads as the pipe is made of one piece
- best power transmission and optimum handling thanks to ergonomic T-handle
