

Expanding-Cutter

<https://ehle-hd.com/en/product/expanding-cutter/>

The **Expanding-Cutter** is a sophisticated special tool for heavy scraping / cutting / peeling operations. The spring mechanism adjusts the tool edges exactly to the drain's inner diameter to be cleared. This means, the complete removal of hard deposits, incrustations, and root fibres is not a problem.

Features

- Spring-mounted cutting edges adapt to the pipe wall
- changeable cutting blades
