

## Expanding Milling-Cutter

<https://ehle-hd.com/en/product/expanding-milling-cutter/>

The **expansion milling cutter** is based on the same principle as the expander cutter. The difference lies in the carbide cutting edges. These make the tool ideal for preparing (roughening) renovation work and for milling stubborn incrustations.

Due to the spring mechanism, the cutting edges of the tool adapt exactly to the internal pipe diameter to be machined. Thus the complete removal of hard deposits and incrustations is no problem.

### Features

- or hard deposits adhering to the pipe wall
- spring-loaded cutting edges adapt to the pipe wall
- suitable for renovation preparation and inliner work
- milling blades are changeable

## Attributes

Image	SKU	Productname	Attributes	LxWxH & Weight
	14222260	Expanding Milling Cutter 100/22	<b>cable typ:</b> 22 mm <b>work range:</b> up to 100 mm	120 × 100 × 40 mm 0.60
	14222261	Expanding Milling Cutter 125/22	<b>cable typ:</b> 22 mm <b>work range:</b> up to 125 mm	120 × 125 × 40 mm 0.61
	14222262	Expanding Milling Cutter 150/22	<b>cable typ:</b> 22 mm <b>work range:</b> up to 150 mm	120 × 150 × 40 mm 0.62
	14222263	Expanding Milling Cutter 200/22	<b>cable typ:</b> 22 mm <b>work range:</b> up to 200 mm	120 × 200 × 40 mm 0.63
	14222264	Expanding Milling Cutter 250/22	<b>cable typ:</b> 22 mm <b>work range:</b> up to 250 mm	120 × 250 × 40 mm 0.64
	14232250	Expanding Milling Cutter 100/32	<b>cable typ:</b> 32 mm <b>work range:</b> up to 100 mm	120 × 100 × 40 mm 0.65
	14232251	Expanding Milling Cutter 125/32	<b>cable typ:</b> 32 mm <b>work range:</b> up to 125 mm	120 × 125 × 40 mm 0.66
