

flex pipe plugs

<https://ehle-hd.com/en/product/flex-pipe-plugs/>

The **inflatable flex pipe plugs** make it possible to close pipes in difficult installations. Thanks to their special shape and flexibility, an easy and quick installation is possible even with low entry openings.

Also available as Flex test plug with passage.

Features

- to shut-off and seal pipes and sewers during repairs or maintenance in difficult installations with low entry openings
- excellent bend capability
- especially suited for leak inspections of building drainage according to standard DIN EN 1610
- resistant against weather and temperatures between -30°C and 80°C
- with compressed air coupling ND 7.2
- on request also available with mini air coupling ND 5.0

suitable for backpressures of max. 10 m water head (max. 1.0 bar) recommended
