

## High-visibility dungarees CHICAGO

<https://ehle-hd.com/en/product/high-visibility-dungarees-chicago/>

Small detail with great effect. The warning protection bib trousers offer the additional protection of the upper part of the body through the bib, a wind- and waterproof equipment as well as the high breathability, which allows a long wearing time. Reflective stripes around the legs ensure professional safety in poor visibility or in the dark.

The comfortable fit, elastic straps and the elastic band in the waistband guarantee perfect wearing comfort. The trousers also offer a high degree of functionality, including leg seams with zipper opening make it easier to put them on and many pockets offer generous stowage options. Protection and functionality combined with high wearing comfort.

### Features

- certified according to EN 13688:2013, EN ISO 20471:2013 and EN 343:2019

- 1 bib pocket, 2 upper flap pockets, 2 cargo leg pockets, 1 back pocket
- mesh lining to support breathability

### Norms

PSA cat. II - covers medium risks that are not covered by Cat. I or III, according to PPE Regulation (EU) 2016/425, Annex I (reference in the Official Journal of the European Union):

- EN 13688:2013 - Protective clothing, general requirements
- EN ISO 20471:2013 - High visibility warning clothing - class 2
- EN 343:2019 - Protective clothing - Protection against rain

## Material

- **Upper material:** 100% polyester with polyurethane coating
- **Lining:** 100 % polyester
- **Water column:** approx. 10.000 mm
- **Breathability:** approx. 3,700 g/m /24h

The water column is a measure of the resistance of the fabric to the penetration of water. According to the EN 343 standard, a fabric reaches the highest class 3 from 1,300 mm. Breathability describes the extent to which water vapor is transported from the inside to the outside.

## Sizes

- S - XXXL

**Please tell us your desired sizes in the note field when requesting a quote. If you do not provide any information, we will contact you.**
