

Inflatbale half round pipe stoppers

<https://ehle-hd.com/en/product/inflatbale-half-round-pipe-stoppers/>

The **inflatbale half round pipe stoppers** have a very short length (or installation depth). This way, they are perfect for easy and quick closure of feeder lines and building drainage with bends. The semicircular shape makes it possible to install the pipe plug directly in the bend, so pipes with difficult installation can be closed as well.

Features

- to shut-off and seal pipes and sewers during repairs or maintenance with difficult installation and low depth
- leak tests acc. to standard DIN EN 1610 with pressurized air or water
- resistant against weather and temperatures between -30°C and 80°C
- ISO 9001 TÜV certified

Suitable for backpressures of max. 5 m water head (max. 0.5 bar).

Attributes

Image	SKU	Productname	Attributes	LxWxH & Weight
	2001140	Inflatable stopper - HR 50-70	work range: 50 - 70 mm operating pressure: 2.5 bar (36.2 psi)	140 × 46 × 46 mm 0.30
	2001141	Inflatable stopper - HR 70-100	work range: 70 - 100 mm operating pressure: 2.5 bar (36.2 psi)	155 × 67 × 67 mm 0.40
	2001142	Inflatable stopper - HR 100-150	work range: 100 - 150 mm operating pressure: 2.5 bar (36.2 psi)	180 × 90 × 90 mm 0.50
	2001143	Inflatable stopper - HR 150-200	work range: 150 - 200 mm operating pressure: 2.5 bar (36.2 psi)	230 × 140 × 140 mm 1.00
