

## KRD vibration nozzles

<https://ehle-hd.com/en/product/krd-vibrating-nozzles/>

**Removes hard incrustations by vibrational energy!** The excentric rotor design creates vibrations which this spinning nozzle transfers on the tube to be cleaned. This way, even the hardest incrustations are removed.

**Not suitable for stoneware tubes, since the tube glaze may be become damaged.**

### Features

- removal of hard deposits, lime, hard incrustations, and clods of construction material
- suitable only for PVC, steel or cast iron tubes between DN 60 and DN 300
