

M18 FUEL Battery sectional cable machine 16/22

<https://ehle-hd.com/en/product/m18-fuel-battery-sectional-cable-machine-16-22/>

Milwaukee's M18 FCSSM battery-powered sectional cable machine is the world's first 18 V battery-based compact cable machine for 16 and 22 mm sectional cables from DN 32 - 160 mm up to 46 m in length.

The particularly powerful 12.0 Ah battery offers the freedom to clear blockages, remove roots and carry out milling work anywhere and quickly. With the battery quick-change system, you are immediately ready for use again. The device has a classic lever switch so you always have the spiral under control.

Features

- the world's first compact part spiral machine on an 18V platform that can use both 16-mm and 22-mm spirals from MILWAUKEE® and other manufacturers in 32 mm to 160 mm tubes
- Light weight of 14 kg (including battery), so the tool can be transported comfortably up several flights of stairs or over longer distances
- Can be used in pipes from 32 mm to 160 mm in diameter to a depth of 46 m
- Fully enclosed drum for clean working for 16 mm and 22 mm spirals
- Extremely compact product dimensions for working in tight spaces 3 exclusive MILWAUKEE® technologies: Brushless POWERSTATE™ motor, REDLITHIUM™ batteries and REDLINK PLUS™ electronics for powerful performance, long life and high durability
- 100% system compatible with the MILWAUKEE®-M18™ product range
- suitable for 16 mm and 22 mm sectional cables from other manufacturers

Technical data:

- **Pipe diameter:** from 32 - 160 mm
- **Cable length:** 46 m
- **Battery voltage:** 18 V
- **Idle speed:** 650 min⁻¹
- **Weight with battery:** 14.0 kg

M18 FCSSM-121 - Set consisting of:

- M18 FCSSM sectional cable machine
- 1x 12.0 Ah battery pack (M18 HB12)
- M12-18 FC charger
- 1x 22 mm cable guide hose
- 1x carrying strap
