

Picote cleaning chains - short version

<https://ehle-hd.com/en/product/picote-cleaning-chains-short-version/>

The **Picote cleaning chains** in the short version come without carbide teeth. This makes them less aggressive and ideal for cleaning more sensitive pipes made of plastic, copper and stoneware.

Features

- used for high-speed drain cleaning, removing blockages, descaling
- the short version has only one tensioning element for the shaft
- chains without carbide or carbide tips
- for sensitive pipes made of plastic, copper and stoneware
