

Picote drill chuck adapter

<https://ehle-hd.com/en/product/picote-drill-chuck-adapter/>

The **Picote drill chuck adapter** allows the flexible shaft to be driven directly by a drill—no Miller machine required. This means that pipes can be cleaned quickly and easily using a cordless screwdriver for short lengths.

The setup is very simple: attach the cordless screwdriver, shaft, and tool – done. A compact, flexible solution for quick use on the go or in emergency service.

Features

- for direct drive of the flexible shaft with a drill or cordless screwdriver
- ideal for short lengths of pipe
- easy to use: cordless screwdriver, shaft, tool – done
- compact, flexible solution for emergency services and mobile applications
