

Picote Maxi Miller Power+

<https://ehle-hd.com/en/product/picote-maxi-miller-power/>

The **Maxi Miller Power+** machines are the largest and most powerful of the Picote Miller family, designed for particularly high demands when cleaning, removing deposits and milling/repairing larger diameter pipes.

It offers almost twice the performance of the Maxi Miller for pipe cleaning, descaling and root removal in pipes from DN70 - 300 mm and repairs in DN150 - 300 mm pipes. It can also be used to remove concrete, sludge and rock in DN150 - 220 mm pipes.

The Maxi Power+'s working range of 18 m can be extended by up to 22 m by using up to two shaft extensions.

Features

- Cleaning / descaling: DN 100 - 300 mm
- Milling / renovation preparation: DN 75 - 300 mm
- Removal of concrete, mortar, sludge: DN 150 - 225 mm
- Parallel camera inspection possible
- 18 mm shaft with thick shaft sheathing for a long service life
- Reach 18 m + 11 m extension (with 2 extensions up to max. 40 m)
- Infinitely variable speed and high torque
- High-speed pipe cleaning for unclogging and root removal
- With foot pedal for comfortable working with 2 hands
- The standard safety equipment with electronic safety clutch, internal RCD, protective shaft casing and emergency stop
- A sturdy frame construction protects the technology and increases the service life.
- Maxi Miller Power+ model with detachable control unit for working in confined spaces

Technical data:

- **Pipe diameter:** from 100 - 300 mm
- **cable length:** 180m + 11 m extension
- **flexshaft:** 18 mm
- **flexshaft protective layer:** thick
- **Rotation speed:** 500 - 1500 min⁻¹
- **Output power:** 3000 W

page 1

- **Voltage:** 400 V , 3-phase, 30/16 A
- **IP protection class:** 54
- **Weight with battery:** 113 kg + 16 kg (control box)
