

Picote Pro Cutting Kits

<https://ehle-hd.com/en/product/picote-pro-cutting-kits/>

With the customized **Picote Pro cutting kits**, you have the most common tools at your disposal to master almost any situation when milling and restoring connections.

Application:

- Available for pipes from DN50 to DN200
- Rehabilitation preparation
- Opening connections after rehabilitation

Features

- All Pro milling kits contain a selection of tools suitable for the respective shaft size and nominal pipe diameter.
- All in the practical Picote tool bag.

Contents vary depending on pipe diameter:

- Special drill head(s)
- Twister Express and replacement front drill head or Original Twister with Tiger
- front plate and Tiger drill head
- Smart Cutter™ with panels with end caps and sacrificial shafts.
