

PRCD-S Adaptor (safety switch)

<https://ehle-hd.com/en/product/prcd-s-adaptor/>

The personal protective switch (FI adapter) detects fault currents and interrupts the current so quickly that life-threatening accidents are prevented (10 mA tripping current), can also be used as an extension for other machines with 230 V.

Attention: Only switch on with bare hands (without gloves) - otherwise protective function not active.

Features

- PRCD-S 230 V/50 Hz, 16 A, 0.03 A
- with heavy rubber hose line in orange
- special design for rough use on construction sites
- large, easy to use ON and OFF buttons
- optical switch position indicator
- Protective conductor monitoring and detection
- all-pole disconnection
- external voltage detection
- undervoltage release
