

Reducer pipe cleaning hose

<https://ehle-hd.com/en/product/reducer-pipe-cleaning-hose/>

Our **1/2" to 1/4" reducer pipe cleaning hose** simply connects directly to the 1/2" high-pressure hose, the high-pressure gun, or the high-pressure washer.

Specially designed for pipe cleaning, this hose stands out for its high flexibility, maneuverability, and low friction. This makes it particularly suitable for use in narrow pipes and in areas with multiple bends.

This allows small drain pipes to be cleaned quickly and effectively.

Features

- particularly smooth outer surface for very low sliding resistance and higher cleaning efficiency
- high flexibility and maneuverability for use in narrow pipes and bends
- simple, user-friendly operation
- direct connection to high-pressure hose, high-pressure gun, or high-pressure cleaner
- wire reinforcement for increased stability and durability

Technical Data:

- length: 20 m
- nominal diameter: DN 6
- operating pressure: max. 300 bar
- connection: DKR 1/2" female to AGR 1/4" male
- outer surface: smooth
