

Remote Transmitter (512 Hz Sonde)

<https://ehle-hd.com/en/product/remote-transmitter-512-hz-sonde-2/>

The **remote transmitter (512 Hz)** from RIDGID can be connected to a pipe cleaning cable, a high-pressure hose or a push rod cable. And can be located in the pipe using a locating device. Thus, damaged areas can be reliably located.

Features

- Battery-powered remote transmitter
- Flashing LED indicates that sonde is transmitting
- Meets FCC Class B and EN 55022 Class B requirements
- various adapters for connection to a 1/2" high pressure hose or to the 16 mm or 22 mm pipe cleaning cables

Scope of delivery

- Remote transmitter (512 Hz)
- AAA batteries
