

S3 safety lace-up boots TeamStar5310

<https://ehle-hd.com/en/product/s3-safety-lace-up-boots-teamstar5305/>

The **TeamStars 5310** guarantee high comfort, maximum stability and high protection against falls from slipping. They are equipped with shock-resistant aluminium caps, they reduce weight, are athermic, non-magnetic, corrosion-resistant and the metal-free EVA cushioning system - the sole is involved in the process: With every step the dynamic cushioning absorbs kinetic energy in a controlled manner. These intelligent bumpers provide lasting relief for the back and muscles.

They are universally applicable, e.g. in industry, trade, interior and exterior areas

Features

With S3 safety shoes, there is no danger from pointed and sharp objects - whether steel inserts or metal-free penetration protection made of the latest HT ceramic material. High-quality materials and a non-slip sole ensure a strong and stable step in every application. The EVA cushioning system contributes to the lasting relief of the entire body.
