

S3 safety laced boots LightStar5323

<https://ehle-hd.com/en/product/s3-safety-laced-boots-lightstar5323/>

Safety, super comfortable - the **LightStars 5323 safety laced boots** have the optimal balance of reduced weight and solid protection. Impact-resistant, metal-free RUNNEX® composite protection caps reduce weight, are athermal, non-conductive, non-magnetic and corrosion resistant. The ESD shoes reliably prevent the wearer from becoming electrically charged. The damaging discharge (Electronic Static Discharge ESD) is thus prevented in sensitive workplaces such as laboratories, the electronics industry or research institutes.

The safety shoes guarantee high comfort, maximum stability and protection against falls caused by slipping. They are universally applicable, e.g. in industry, warehouses, trade, laboratories, electronic industry, indoor and outdoor areas and many more.

Features

With S3 safety shoes, there is no danger from pointed and sharp objects - whether with steel inlay or metal-free penetration protection made of the latest HT ceramic material. High-quality materials and a non-slip sole ensure a strong and stable step in every application.

- **Upper material:** microfiber material, hydrophobic textile lining
- **Lining:** RUNNEX® AIRSTREAM functional lining
- **Heel lining:** RUNNEX® SOFTtouch
- **Sole:** rubber outsole with Phylon midsole
- **Cap:** RUNNEX® composite protection
- **Penetration protection:** metal-free
- **Footbed:** full-surface, breathable insole for replacement, DGUV 112-191 (certified orthopedic insoles)
- **Weight:** approx. 551 g / piece size 42
- **Slip resistance:** SRC
- **standards:** EN ISO 20345:2011. EN ISO 61340-4-3
- **Plus:** low weight, ESD equipment, metal-free

Sizes

- Width 10,5
- Shape B
