

Sewer mirrors made of polished stainless steel

<https://ehle-hd.com/en/product/sewer-mirror/>

The latest generation of **sewer mirrors** are made of polished stainless steel. Durability and sharp image reproduction characterize them. An easy-to-operate clamping and adjustment mechanism enables the selected sewer mirrors to be changed and adjusted quickly. With the telescopic rod that can be extended up to 6 m and the EX-protected rod lamp you can reach every angle to be examined.

Features

- Mirror rod telescopic to 6 m
- sewer mirror made of polished stainless steel
- special clamping and adjustment mechanism for quick and easy adjustment
