

sliding hose guides

<https://ehle-hd.com/en/product/sliding-hose-guides/>

The **sliding hose guides** with screwed plastic sliding insert is used for guiding high-pressure sewer cleaning hoses. They protect the high-pressure hose from abrasion and chafing damage.

The hose guides are used for the bottom edge of the manhole.

Features

- hose guides for high-pressure hose
- hose guides devices for the bottom edge of the manhole
- made of galvanized steel with screwed plastic slide insert
- with snap hook for hanging
