

spray guns with adjustable nozzle

<https://ehle-hd.com/en/product/spray-guns-with-adjustable-nozzle/>

The **high-pressure gun with adjustable nozzle** from round to flat jet for the cleaning of manholes and other surfaces.

The handle serves as a switch so a stepless, fast and simple change from round jet to flat jet is possible.

Features

- strong brass body with stainless steel tube
- 1/2" female hose connection with swivel joint
- Handle with switch for flat jet / round jet
