

Standard cables with core

<https://ehle-hd.com/en/product/standard-cables-with-core/>

The **standard sectional cable with core** and T-Coupling is designed for use in areas with heavy contamination.

Its black plastics core is highly resistant against temperature and climate and prevents that the cable is loaded with clogged material, e.g. dirt or residuals of textile or cellulose blockages.

Features

- with black plastics core to prevent clogging the cable
- with T-Coupling
- for universal cleaning work
- very flexible for narrow or several consecutive sheets
- perfect for shorter distances
