

Tiger Cyclone - carbide chains

<https://ehle-hd.com/en/product/tiger-cyclone-carbide-chains/>

Tiger Cyclone carbide chains bridge the gap between Picote Standard Original chains and Premium Original chains. Extra-hard, highly durable carbide teeth with a lighter chain material are a gentle, lightweight but extremely durable option for cleaning stoneware, concrete and cast iron pipes and removing roots, scale and blockages.

Cyclone chains remain centred in the pipe through the use of centrifugal force. No adjustment is necessary; the centrifugal force centres the tool in the pipe and offers greater protection for damaged or brittle pipes.

Suitable for stoneware, concrete and cast iron pipes

Features

- used for high-speed drain cleaning, removing blockages, descaling and smaller roots
- chains with extra-hard carbide or hard metal attachments
- lighter chain material compared to Picote Original Standard chains
- suitable for stoneware, concrete and cast iron pipes

Attributes

Image	SKU	Productname	Attributes	LxWxH & Weight
	P1381084075V	Tiger Cyclone carbide chain 70/8	shaft typ: 8 mm work range: DN 70	70 × 70 × 30 mm 0.10
	P1381084100V	Tiger Cyclone carbide chain 100/8	shaft typ: 8 mm work range: DN 100	100 × 100 × 30 mm 0.2
