

## Transport container for sectional cable

<https://ehle-hd.com/en/product/transport-container-for-sectional-cable/>

Milwaukee's **transport containers for sectional cables**, made of extremely robust and shock-resistant plastic, are the perfect solution for transporting the 16 - 32 mm cables. The closed containers allow clean transport of the used cables. The containers can also be used to clean the sectional cables.

### Features

- are made of extremely robust and shock-resistant plastic
- closed housing enables clean transport of used sectional cables
- easy cleaning of the cables directly in the container (drain opening above the handle)
- ergonomic handle
- suitable for all common sectional cables 16, 22 and 32mm
- fits in all common vehicle internals or cable basket magazines
