

Twister Liner Remover

<https://ehle-hd.com/en/product/twister-liner-remover/>

Picote's Twister Liner Removers are the efficient solution for trenchless removal of collapsed or fallen liners. They save valuable time and avoid costly excavation work when restoring failed CIPP liner installations.

The robust front plate with large carbide attachments enables fast and controlled milling of the liner – ideal for renovation professionals who value efficiency and safety. A must-have in every toolbox.

Features

- removes collapsed or fallen liners without digging
- save time and excavation costs when restoring failed CIPP liner installations
- Twister and Tiger Twister liner removers are designed for use with the Maxi Miller
- Smart Crusher for Maxi Power+ machines
- models available for lined and unlined pipes
- ideal for professional use in pipe rehabilitation

3 models are available:

- **Twister liner remover:** Removes collapsed liners reliably and trenchlessly.
- **Tiger Twister liner and concrete remover:** Two tough jobs, one even tougher tool – removes concrete and liners twice as fast as the standard Twister.
- **Smart Crusher:** The liner remover for Picote Maxi Power+ machines with 18 mm shaft.
