

Warning protection jacket HOUSTON

<https://ehle-hd.com/en/product/warning-protection-jacket-houston/>

Particularly comfortable to wear due to the combination of elastic fabric with body-hugging cut and ergonomically shaped sleeves. The functional membrane guarantees high waterproofness and very good breathability of the fabric. The Rib-Stop fabric structure prevents tearing and is therefore particularly durable. Innovative, segmented reflective strips, which are printed directly onto the fabric, run around the body and sleeves as well as the shoulder areas (suspenders reflective strips).

Dark, abrasion-resistant trimmings on the hem and sleeve cuffs prevent easy soiling and the hem edges from being pushed off. Elaborate interior finishing with large hood, inside pocket and cell phone pocket.

Features

- certified according to EN 13688 and EN 20471
- particularly comfortable to wear due to the combination of elastic fabric with a cut close to the body and ergonomically shaped sleeves
