

Warning vest for IKAR Safety Harness

<https://ehle-hd.com/en/product/warning-vest-for-ikar-safety-harness/>

The **IKWA warning vest** is suitable for use with IKAR Safety Harness. The vest is made of high-quality 3M Scotchlite, has reflective stripes and has an insulating effect. It is also suitable for use as warning clothing in road traffic.

The inner vest for belt installation allows the belt to be fitted and removed quickly. The feed-through slits can be closed and are weatherproof.

Features

- Special, high-quality warning vest with 3M Scotchlite® illuminated reflex stripes in robust and easy-care textile design with increased insulation effect.
- Inner vest for belt installation with simultaneous belt system fixation
- suitable for the installation of IKAR harness systems in versions with 2-point safety eyelets (D-ring) and rescue loops - but not for harness systems with belly strap
- Feed-through slits can be closed weatherproof with Velcro fasteners
- quick and easy installation and removal of the IKAR Safety Harness
- extra inner sewn-in hood pocket in the inner upper back area for the rescue loop
- also permissible as warning protective clothing in road traffic
- EN 361:2002, EN 358:2000, 1497:2007, EN 471
